PROFESSIONAL SUMMARY

Software Engineer with an M.Sc. in Computer Science and 1.5 years of hands-on experience building, deploying and maintaining production web applications and Linux-based infrastructure. Designed and delivered a workflow management portal and an AI-powered WhatsApp chatbot used in government operations, and managed Linux servers, AWS cloud services and application deployments. Skilled in Java, Python, JavaScript, SQL, Docker and AWS, with strong fundamentals in data structures, algorithms and object-oriented design. Seeking a Software Engineer, Backend Developer or DevOps/Cloud Engineer role.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C, SQL, Shell Scripting (Bash)

Web Development: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, REST APIs

Databases: MySQL, MongoDB

Cloud & DevOps: AWS (EC2, VPC, S3, IAM, EBS), Docker, Vagrant, Linux (Ubuntu, CentOS), server provisioning, DNS and domain configuration

Tools & Version Control: Git, GitHub

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, System Design Basics, SDLC, Machine Learning (LSTM, XGBoost), NLP & LLMs

PROFESSIONAL EXPERIENCE

Associate Consultant (GPR Cell), Kirtane & Pandit LLP

Apr 2026 – Present

Chief Minister's Office, Government of Maharashtra | Mumbai

- Analyzed workflows across 35+ government departments and recommended technology-enabled process improvements and automation.
- Coordinated migration and standardization of citizen services onto state digital platforms including Aaple Sarkar, MahaDBT and MAITRI, working with MahaIT and department teams.
- Prepared data-driven analysis and process documentation to support decision-making by senior officials.

Technology Consultant, Virtus Hospitality Pvt. Ltd.

Apr 2025 – Apr 2026

Deployed at Mantralaya, Government of Maharashtra | Mumbai

- Designed and developed the Nondh Pranali web portal, digitizing departmental workflows with real-time tracking, structured approvals and centralized reporting, replacing manual paper-based processes.
- Built and deployed an AI-powered WhatsApp chatbot to automate citizen queries, improving response time and access to public services.
- Managed development, maintenance and performance of five departmental public-facing websites, ensuring high availability.
- Administered Linux servers, AWS cloud services, security controls and application deployments to maintain reliability and service continuity.
- Gathered requirements from administrative and IT stakeholders and translated them into technical features and releases.

Web Developer Intern, Digiwork Online Services and Consultancy LLP

Jan 2025 – Apr 2025

Pune, Maharashtra

- Developed and deployed the company's responsive website, increasing user traffic by 25%.
- Built and configured Linux (Ubuntu/CentOS) servers from scratch with domain setup and deployment, achieving 99.9% uptime.
- Containerized applications using Docker and hosted them on AWS EC2 with secure access configuration.
- Engineered a PDF download tracking system with access logging to monitor and secure document distribution.
- Integrated backend APIs and resolved performance bottlenecks with senior developers to improve response times.

PROJECTS

Stock Prediction & Portfolio Analysis using LSTM-XGBoost

Python, ML

- Built a hybrid LSTM-XGBoost model for stock price prediction and portfolio evaluation; research paper submitted to Microsoft CMT conference.

Self-Hosted Linux Web Server

Linux, Networking, DNS

- Converted an old desktop into a Linux web server and hosted a publicly accessible website, configuring networking, DNS routing and uptime monitoring.

Research: Challenges in GPS-Based Toll Systems**Research**

- Analyzed technical and implementation challenges of GPS-based tolling; paper submitted to Microsoft CMT conference.

EDUCATION

Master of Science in Computer Science, MIT World Peace University, Pune**Jun 2023 – Jun 2025****Bachelor of Science in Computer Science, PVG College of Arts, Science and Commerce, Pune****Jun 2020 – Jun 2023****CERTIFICATIONS & ACHIEVEMENTS**

- HackerRank Gold Badge: top 5% of participants across 100+ problem-solving challenges.
- Use Generative AI for Software Development, IBM SkillsBuild (2024).
- Introduction to Java Programming, The Hong Kong University of Science and Technology (2024).
- Natural Language Processing and Large Language Modeling, MIT WPU (2023).
